DIGITAL DISTRIBUTION WITH BIG RIG RECORDS

Big Rig Records has partnered with US digital supplier IODA and are pleased to announce that we can offer individual bands and artists access to over 100 online and mobile digital providers such as:

iTunes, Amazon, Audio Lunchbox, emusic, Destra, LastFM, Napster, Puretracks, Strabucks, T-Online and Verizon just to name a few...

We are offering artists the choice of 2 contracts, 1 royalty based where Big Rig take a percentage of sales income for those not sure how many digital sales they might achieve and 1 fee based contract with a 14 month royalty free period for artists who feel that their release will sell like hotcakes and want to get the maximum possible returns.

Option 1 – Royalty Based Contract

Term: 1 year
Setup Charge: \$25
Big Rig Royalties: 15% of gross sales
Renewal period: 1 or 2 years (Artists choice)

Option 2 - Fee Based Contract

Term: 1 year
Setup Charge: \$100
Big Rig Royalties: Nil for the 1st term + 2 months then 15% of gross sales for subsequent terms
Renewal period: 1 or 2 years (Artists choice)

What we will require from you:

- Signed distribution agreement and payment of setup fees
- 1 copy of original recording on CD
- Full release artwork in digital format - 300dpi TIFF files
- ISRC's (International Standard Resource Code) for each track - These are obtained free of charge through ARIA and we can guide you through this.
- UPC (Barcode Number) - If you don't have a barcode for your release we can provide one for an additional \$10
- Any written liner notes as a Microsoft word or plain text file.
- Any press releases for the recording as a Microsoft word or plain text file.
- Any artist Bio as a Microsoft word or plain text file.
- Artist promotional photos - 300 dpi TIFF files

On the following pages is a list of some of the services we can reach, and a few screen shots of how things will appear.

If you have any questions or would like to get started contact us and we can get you rollin' on the digital highway...
